## SUMMARY

I am a **Bachelor's student in Computer Science** at Ynov Campus Aix-en-Provence. I will begin my **3rd year in a work-study program (apprenticeship) in September 2025.**
Passionate about technologies, I have a **versatile profile** combining development, networks, and cybersecurity.
I aim to join a **dynamic and innovative company,** where I can actively contribute to projects while **strengthening my professional skills. Curious, rigorous and committed.**

PROJECTS & ACHIEVEMENTS

💎 **Secure Architecture Design**
Implementation of good security practices in code, **session management,** role-based access, and **Docker deployment**

💎 **Practical Cybersecurity in Company**
Security best practices and **participation in internal audits**

💎 **CTF Challenges Participation**
Participation in several **cybersecurity challenges**

💎 **Full-Stack Web Development**
Creation of complete websites with **database,** business logic and **secure frontend/backend**

💎 **Versatile Developer**
Mastery of multiple languages and environments

SKILLS

Languages & Environments

Languages & Environments: HTML, CSS, JavaScript, Java, Golang, C#, PHP, Python, SQL (MySQL), API (mobile applications), React Native / Flutter

Cybersecurity

Tools: Nmap, Wireshark, Burp Suite Vulnerabilities: XSS, SQLi, CSRF Practical skills: Risk evaluation, Intrusion Testing, Application Security Hardening

Tools & Methods

DevOps: Git, Docker, CI/CD, Infrastructure IDEs and Editors: VS Code, IntelliJ, JetBrains (PyCharm)
